**Mr J Gardner,
British Weights and Measures Association,**

Dear Mr Gardner,

Thank you for taking the trouble to write to me about the deregulation of compulsory metrication.

I oppose any measure which would make it an offence for a greengrocer to sell apples in pounds and ounces and I have written to Ian Lang about this.

I'll contact you again as soon as I have a reply. I am hoping that action is taken within the next 14 days, but if you have heard nothing by the end of this period, please get in touch with me again so that I can pursue it further.

Best wishes.

Yours sincerely,

N Griffiths MP
